

waterfilter.direct QUAD-FLOW

Australia's most robust POU Hi-Flow filter system – engineered with superior materials for unmatched durability and filter performance.

- ✓ 99% Chlorine reduction
- ✓ Hi-Flow for kitchen sink mixer
- ✓ 30,000 L Cartridge life
- ✓ Easy installation

The Quad-FLOW, a robust Hi-Flow POU filtration system. The unit delivers complete water treatment in multiple stages - filtration, adsorption down to 0.5 micron - to remove sediment, chemicals, bacteria and other pathogens while improving taste, clarity and odour.

Protects against

Bacteria

Sediment

Chlorine taste, odour

Chemical reduction

QUAD-FLOW

Protects against

- Removes and reduces pathogens including E. Coli, Cryptosporidium and Giardia, making it safe for drinking.
- Removes sediment and improves taste, colour and odour of, Chlorine, Chlorimine, PFAS, PFOA, Pesticides, VOCs, DBP-THM, Carcinogens including anti-scale solutions, bore water and town water.
- Corrosion-resistant.
- Premium filter media
- stainless steel flexi hoses
- Complete installation kit for quick 'plug & play' installation.

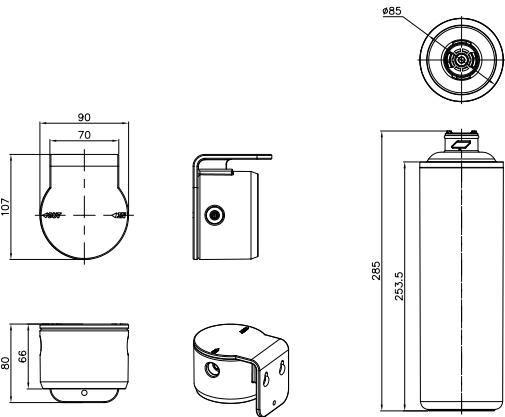

WHAT'S INCLUDED

- Filter Head unit
- Hi-Flow advanced filter cartridge
- Installation kit including all components for complete installation

- 1.8m 10mm Tube
- Stainless steel flexi hoses
- Isolation valve
- M/I & F/I connectors
- 10mm Elbows F.I
- 10mm Elbows M & F

System Must be installed be a Lic Plumber.
ATTENTION: Use GENUINE replacement Water Filter Direct filter cartridges and components.

Models & Specifications

Model	Dimensions			Inlet-Outlet	Seal	Warranty
	Height	Width				
Quad-Flow	319.5	90.0		10mm tube	O-Ring	5 YEARS

Model	Inlet	Outlet	Volume	Flow		Maximum Pressure
Quad-Flow	10mm	10mm	30,000L	9-12 LPM		500kpa

Inlet Water Pressure: 175 > 500kpa - AS = 500kpa
